

Consultation: Age appropriate design code

Introduction

The Information Commissioner is seeking feedback on her draft code of practice Age appropriate design: a code of practice for online services likely to be accessed by children (the code).

The code will provide guidance on the design standards that the Commissioner will expect providers of online 'Information Society Services' (ISS), which process personal data and are likely to be accessed by children, to meet.

The code is now out for public consultation and will remain open until 31 May 2019. The Information Commissioner welcomes feedback on the specific questions set out below.

For this consultation, we will publish all responses except for those where the respondent indicates that they are an individual acting in a private capacity (e.g. a member of the public or a parent). All responses from organisations and individuals responding in a professional capacity (e.g. academics, child development experts, sole traders, child minders, education professionals) will be published. We will remove email addresses and telephone numbers from these responses but apart from this, we will publish them in full.

For more information about what we do with personal data please see our privacy notice.

Please note, we are using the platform Snap Surveys to gather this information. Any data collected by Snap Surveys for ICO is stored on UK servers. You can read their Privacy Policy [here](#).

Section 1: Your views on the code

Is the 'About this code' section clearly communicated?

Q1

Yes

No

If no, then please provide your reasons for this view.

Q1a

Is the 'Services covered by this code' section clearly communicated?

Q2

Yes

No

If no, then please provide your reasons for this view.

Q2a

Section 2: Your views on the draft standards

There are 16 draft standards in the code. You can comment on all the drafts standards, or focus on a single standard. If you do not want to answer questions on a standard please press skip.

The standards are:

- 1) Best interests of the child
- 2) **Age Appropriate Application**
- 3) Transparency
- 4) Detrimental use of data
- 5) Policies and community standards
- 6) Default settings
- 7) Data minimisation
- 8) Data sharing
- 9) Geolocation
- 10) Parental Controls
- 11) Profiling
- 12) Nudge techniques
- 13) Connected toys and devices
- 14) Online tools
- 15) Data protection impact assessments
- 16) Governance and accountability

Best interests of the child: The best interests of the child should be a primary consideration when you design and develop online services likely to be accessed by a child.

- Q3 I would like to comment on this standard
 Skip

Have we communicated our expectations for this standard clearly?

- Q4 Yes
 No

If no, then please give reasons for your answer.

Q4a

Do you have any examples that you think could be used to illustrate the approach we are advocating to this standard?

Q5

Yes

No

If yes, then please give reasons for your answer.

Q5a

Do you think this standard gives rise to any unwarranted or unintended consequences?

Q6

Yes

No

If yes, then please give reasons for your answer.

Q6a

Do you envisage any feasibility challenges to online services delivering this standard?

Q7

Yes

No

If yes, then please provide details of what you think the challenges are and how you think they could be overcome?

Q7a

Do you think this standard requires a transition period of any longer than 3 months after the code comes into force?

- Q8 Yes
 No

If yes, then please provide your reasons for this view, and give an indication of what you think a reasonable transition period would be and why.

Q8a

Do you know of any online resources that you think could be usefully linked to from this section of the code?

- Q9 Yes
 No

If yes, then please provide details (including links).

Q9a

Age-appropriate application: Consider the age range of your audience and the needs of children of different ages. Apply the standards in this code to all users, unless you have robust age-verification mechanisms to distinguish adults from children.

- Q10 I would like to comment on this standard
 Skip

Have we communicated our expectations for this standard clearly?

- Q11 Yes
 No

If no, then please give reasons for your answer.

- Q11a For a global ISS needing to adhere to age based requirements in other countries, e.g. COPPA within the USA, a workable example would be useful that shows an actual weaving of age self-declaration and age verification, with explanation of why each is appropriate and where. The current wording of the standard is very precise, but arguably lacks usability. A matrix might be useful, showing elements of the standards and which would require age-verification and which could potentially rely on self-declaration. By comparison, the FTC's guidance on COPPA is more simple but narrow, and many organisations will not be accustomed to combining two age checking methods to deliver the user experience. COPPA is mature and it would make sense to make reference to it for those that are already complying with it and now want to comply with this standard too.

Do you have any examples that you think could be used to illustrate the approach we are advocating to this standard?

- Q12 Yes
 No

If yes, then please give reasons for your answer.

- Q12a Examples of specific ISS practices and the role of age checking would be useful, e.g. Your app may not require consent for use by children and not need age gating through robust verification to sign up. But asking for age upon registration may have value later on. If your app prompts users to opt into email marketing, this is likely to be based on Consent. If you had asked for a user's age upon registration, this would allow you to know if the user is 13+ and thus could consent to this question. If you know the user to be <13 then you would likely not want to surface this marketing sign up question.

Do you think this standard gives rise to any unwarranted or unintended consequences?

- Q13 Yes
 No

If yes, then please give reasons for your answer.

Q13a

Do you envisage any feasibility challenges to online services delivering this standard?

- Q14 Yes
 No

If yes, then please provide details of what you think the challenges are and how you think they could be overcome?

- Q14a As attention becomes more focused on age verification and its interplay with consent and self declaration, confusion will arise as to how this interweaves with PECR and cookie banners, e.g. presenting cookie banner consent questions to a child to opt into Facebook tracking. Some specific examples that work through common scenarios would help here.

Do you think this standard requires a transition period of any longer than 3 months after the code comes into force?

- Q15 Yes
 No

If yes, then please provide your reasons for this view, and give an indication of what you think a reasonable transition period would be and why.

Q15a

Do you know of any online resources that you think could be usefully linked to from this section of the code?

- Q16 Yes
 No

If yes, then please provide details (including links).

Q16a

Transparency: The privacy information you provide to users, and other published terms, policies and community standards, must be concise, prominent and in clear language suited to the age of the child. Provide additional specific 'bite-sized' explanations about how you use personal data at the point that use is activated.

- Q17 I would like to respond to this standard

Have we communicated our expectations for this standard clearly?

- Q18 Yes
 No

If no, then please give reasons for your answer.

Q18a

Do you have any examples that you think could be used to illustrate the approach we are advocating to this standard?

- Q19 Yes
 No

If yes, then please give reasons for your answer.

Q19a

Do you think this standard gives rise to any unwarranted or unintended consequences?

- Q20 Yes
 No

If yes, then please give reasons for your answer.

Q20a

Do you envisage any feasibility challenges to online services delivering this standard?

- Q21 Yes
 No

If yes, then please provide details of what you think the challenges are and how you think they could be overcome?

Q21a

Do you think this standard requires a transition period of any longer than 3 months after the code comes into force?

- Q22 Yes
 No

If yes, then please provide your reasons for this view, and give an indication of what you think a reasonable transition period would be and why.

Q22a

Do you know of any online resources that you think could be usefully linked to from this section of the code?

- Q23 Yes
 No

If yes, then please provide details (including links).

Q23a

Detrimental use of data: Do not use children's personal data in ways that have been shown to be detrimental to their wellbeing, or that go against industry codes of practice, other regulatory provisions or Government advice.
